**Instructions:**

- On the Application Form, please check the appropriate fee box under either a new Application or an Amendment.
- Per **NRS 322.110**, the State Land Registrar shall charge a nonrefundable fee for the consideration of an application for the issuance of any lease, easement, permit, license or other authorization. The application fee must accompany the application in order to be processed.
- Per **NRS 322.100**, the Division of State Lands must charge a fee for the issuance of a Permit, License, or other Authorization in such an amount as the State Land Registrar determines to be reasonable based upon the fair market value of the use.
- Per **NRS 322.060**, the Division of State Lands must charge a fee for issuance of a lease or easement based upon the fair market value of the land.
- Upon determination that a project may be approved the Division of State Lands will issue the appropriate authorization (e.g. easement, permit, license, etc.) on a form approved by the attorney general’s office. The authorization will contain necessary terms and conditions such as insurance requirements that must be agreed to by the applicant in writing before the project may proceed.
- Applicants may contact the Division of State Lands prior to application submittal for clarification of application procedures. Application must be complete, including necessary attachments, in order to be considered for processing. Incomplete applications will be returned and the project closed if additional information as requested by Division of State Lands staff is not received **within 30 days of the request**

or if the Division of State Lands has not been contacted to make other arrangements. If the project is closed, reapplication with appropriate fees will be required to have the project reconsidered.

- **Issuance of a permit by another federal, state or regulatory agency does not ensure that a permit can be issued by the Division of State Lands.**
- Once the project is considered authorizable, Division of State Lands staff will request the required annual fees and the necessary insurance documents as referenced below. If these items are not received as requested within 30 business days of the request, or if the Division of State Lands has not been contacted to make other arrangements, the application will be returned and the project closed. If the project is closed, reapplication with appropriate fees will be required to continue the process.
- A certificate of liability insurance and policy endorsement naming the State of Nevada as additionally insured is required prior to a permit being issued. Maintaining insurance coverage for the term of the permit is also required. Minimum liability amounts vary by use and start at ONE MILLION DOLLARS (\$1,000,000.00).
- There is a new, required checklist associated with this application that must be submitted as part of the application package in order for NDSL to consider the application complete.
