[2/3 11:52 AM] Pritchett, David A

Potential scoping addition, all or part: "During our meeting held November 10, 2022, SLUPAC endorsed the Nevada-Wide RMPs Modernization Project proposed by BLM Nevada State Office. We request that the solar plan RMP Amendment underway now, on a faster schedule, should collaborate with the local BLM staff, compliment the broader Nevada-wide RMPs project, and not prevent other planning opportunities unrelated to solar project area designations."

[2/3 12:00 PM] Jeremy Drew

I have to jump, but great work to all on the Solar letter! Thank you
