

6-12-23 SLUPAC Meeting Chat Transcript

From Scott Carey to Everyone Monday 1:01 PM

Good Afternoon and welcome to the 6-12-23 SLUPAC Meeting

From Jake Tibbitts to Everyone Monday 2:26 PM

We note the wide range of viewpoints on the Proposed Rule, including amongst councilmembers of SLUPAC. Some oppose the Proposed Rule, some believe it is unnecessary, and some support it, all with varying reasons and interpretations. As drafted, the Proposed Rule can be interpreted to align with the viewpoints and biases of any party. SLUPAC asserts that regulations should be written in a way to remove, as much as possible, any subjectiveness and wide range of interpretation. SLUPAC provides this letter to assist to clarify the intent and application of the Proposed Rule should BLM move it forward.

From Mike Reese to Everyone Monday 2:26 PM

Lincoln County is in agreement with Jake and his comment about clarifying the application of this new rule.

From Commissioner Cassie Hall to Everyone Monday 2:31 PM

I also agree. (Mineral)

From Jake Tibbitts to Everyone Monday 2:34 PM

However, the term “lease” is causing some confusion and consternation amongst stakeholders. Perhaps a better term would be something like “Conservation Agreements with Assurances (CAA)” which puts more emphasis on “agreements” while stating the intent to provide assurances that the conservation work will be completed and be durable.

From De Winson to Everyone Monday 2:35 PM

carbon credits can only be used in the state of Nev.
